Learn more about the destination

The Baltic States consist of three countries of Europe – Lithuania, Latvia, and Estonia and are often regarded geografically, historically and culturally as one region. They were once part of the Soviet Union, but they were among the first to break away in 1990—91.

Geographically, the three Baltic States have much in common. Forests and lakes cover a vast amount of the countryside; there are 2,800 lakes in Lithuania alone, many of them glacial. This landscape defines the roads of the region: winding, going up and down in hilly areas and straight to the horizon in the lowlands closer to the sea.

The region is very historical, with ancient castles and hill forts, some dating back to the 1200s. Region was a scenery of long confrontation between local people and the Teutonic Knights in medieval ages and between western and eastern European empires in the 16-20 centuries. The culture of the region combines local traditions with Polish, Russian, German and Scandinavian influences.

All three Baltic States are members of European Union (since 2004) and Schengen area (since 2007).

Useful info

Skills required:

This tour is not a sport event. We do nothing what goes beyond the rules of the road. All roads we go are paved, exception – several short sections of gravel roads, which we pass carefully on low speed (totally about 15 km during the whole tour). Cruising speed is about 90-110 km/h, going down to 60-80 km/h on local winding roads. Average day distance is about 200-350 km (exception Day 5, distance about 550 km, can be shortened on the request of the group). Rainy weather and side wind is possible.

What to take with you?

We suggest bringing your riding clothes, which you are used to (helmet is mandatory). Shoes has to be suitable for walking short distances and climbing the staircases. Take a sweater and a light jacket, since it can be rather cold in the evenings.

Safety and environment

Life and traveling in Baltic states are rather safe, but still it doesn’t mean that You can leave Your purse on the table in restaurant or helmet on the tank of Your bike. Traffic is well-ordered and even unhurried. Road pavement is mostly of good quality. Credit cards are accepted practically everywhere, but keeping some amount of cash is always recommended.

Entering the Baltic States.

To enter Lithuania, Latvia or Estonia EU citizens and citizens of most European countries require only ID-card. US and Canadian citizens require a valid passport.
